SALMAN IRANI

Full stack developer and php lover.working in #kimiyaco
Tehran, Tehran, Iran

Summary

I have more than 10 years of experience in professional web
programming and working with several clients and companies.

Experience

Kimiya Company
Full-stack Developer
July 2019 - Present (3 years 2 months)
Tehran, Iran

I have the role of project management and programming in this company.
In this company, we were able to implement two large projects and monitor
and troubleshoot an ongoing organizational project related to one of Iran's
ports. I was responsible for managing all these projects, analyzing the
database, and writing part of the backend.

Farokhmehr
PHP Programmer
August 2011 - August 2019 (8 years 1 month)
Yazd, Iran

Created plans and communicated deadlines to ensure projects were
completed on time.
Proved successful working within tight deadlines and fast-paced atmosphere.
Managed team of 17 employees, overseeing hiring, training, and professional
growth of employees.
Worked with 50 customers to understand needs and provide excellent service.
Developed team communications and information for meetings.
Programs that I wrote entirely by myself :
